DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application.

Claims 7-9, 13 and 18-22 are pending in the application.

This action is in response to applicants' amendment dated March 3, 2004. Claim 7 has been amended.

Response to Arguments

Applicant's arguments filed March 3, 2004 have been fully considered with the following effect:

1. The applicant's amendments are sufficient to overcome the objection to the specification in the last office action, which is hereby **withdrawn**.
2. The applicant's amendments are sufficient to overcome the 35 U.S.C. § 112, second paragraph rejections of the last office action, which are hereby **withdrawn**.

In view of the amendment dated March 3, 2004, the following new grounds of rejection apply:

Specification

3. The amendment filed February 17, 1999 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: the structure on page 64, line 1 was amended, however support for the amendment to the structure is

Art Unit: 1624

not seen in the specification. The applicants are requested to provide clear support for the amendment to the structure.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claim 22 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The medical condition teratocarcinoma in the list of diseases or medical conditions of claim 22 is not described in the specification.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

5. Claim 22 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reason(s) apply:

a) Claim 22 is vague and indefinite in that it is not known what is meant by the medical condition teratocarcinoma.
